

**Instant alerts.  
Proactive monitoring.  
Automatic reporting.**

*TopLine Alerts is a notification program for ACT! Windows or web (2006-2011). This server-based program monitors activities, histories, opportunities, back-ups and synchronization for all users in your master ACT! database. TopLine Alerts sends customized email notifications or TopLine Dash PDF reports to your inbox or PDA.*

Download your **free trial** today!
